CAREER OBJECTIVE

Entry-level Microsoft SQL Server Database Administrator with hands-on experience in database administration, backup and recovery, database maintenance, and troubleshooting. Knowledgeable in high availability and disaster recovery (HA/DR) concepts, including Always On Availability Groups, log shipping, DB mirroring, and replication. Experienced in practising SQL Server administration in Windows VMs and Azure VMs, with a strong focus on DB reliability, security, and availability.

TECHNICAL SKILLS

- **Installation and Configuration:** Installing, configuring, and troubleshooting Microsoft SQL Server instances; familiarity with slipstream installations and SP/CU patching concepts.
- **Database Security and Access Management:** Windows and SQL Server authentication, logins, database users, roles, permissions, and authorization.
- **Backup, Recovery, and Automation:** Full, differential, and transaction log backups and restores, recovery models, point-in-time recovery, SQL Server Agent jobs, Database Mail, and alerts.
- **High Availability and Disaster Recovery (HADR):** Log Shipping, Database Mirroring, Always On Availability Groups, Windows/SQL Server Clustering, and SQL Server Replication.
- **Replication and Cluster Administration:** Snapshot, Transactional, and Merge Replication; WSFC quorum, voting mechanisms, failover operations, and Active Directory domain configuration.
- **SQL Server Internals and Indexing:** Database architecture, memory and transaction log fundamentals, clustered and non-clustered indexes, index fragmentation, and index maintenance.
- **Performance Monitoring and Troubleshooting:** Performance Monitoring, DMVs, wait statistics, query performance, blocking, deadlocks, connectivity issues, and database/storage space management.
- **Microsoft Azure:** Creating virtual machines and virtual networks; configuring Always On AG listeners and load balancers (DNN/VNN); familiarity with Azure SQL Database, Azure SQL Managed Instance, BACPAC exports, Azure Blob Storage backups, and on-premises database migration to Azure using VS Code.
- **Database:** SQL Server 2016, 2017, 2019, 2022, 2025
- **Operating Systems:** Windows Server 2016, 2019, 2022, 2025
- **Tools:** SSMS, VSCode, Perfmon
- **Monitoring/Ticketing Tools:** ServiceNow

EDUCATIONAL QUALIFICATION

Vasireddy Venkatadri Institute of Technology | Guntur **2022-2025**
B. Tech in Computer Science and Engineering

A.A.N.M. & V.V.R.S.R. Polytechnic | Gudlavalleru **2019-2022**
Diploma in Computer Science and Engineering

St. Ann's School | Vijayawada **2018-2019**
ICSE Board Education

CERTIFICATIONS

- Microsoft SQL Server Professional Certificate | **Coursera**

PROJECTS (ACADEMIC)

DeepDerma-LabOps | SQL Server DBA & ML Integration Project

- Integrated a Streamlit ML application with SQL Server, implementing prediction data storage, audit logging, and database access controls.
- Implemented and validated backup and recovery workflows, SQL Server Agent jobs, database integrity checks, and index-based query optimization.

STRENGTHS

- Analytical Thinking, Attention to Detail
- Communication Skills, Curiosity & Continuous Learning
